SUBJECT : STL ECP 3-25-ABC and ECP 6-22-A

25X1A

Subject ECP's are approved for the Project. Request you notify the contractor and accordingly.

25X1A

SIGNED

Acting Chief, Materiel Division
OSA-DD/R

CONCUR:

COMMO/OSA

cc: D/PA/OSA
COMMO/OSA
OD/OSA

NOTE: ECP 3-25-ABC will provide a capability to limit oscillator activity in System 3 to a minimum without degrading lock-on sensitivity and will reduce the possibility of the System self-locking on to radiated oscillator signals. In addition, this mod provides a method for adjusting the first local oscillators in the RF Assemblies for optimum activity.

ECP 6-22-A This mod will ^{prevent} provide saturation of the System 6 Info Amplifier, MP13131, when used in conjunction with the ~~Preamp S603~~
